FUNERAL DIRECTORS

DEATH IS BUT A HORIZON ... A HORIZON IS BUT THE LIMIT OF OUR SIGHT

## WE DISCOURAGE PRACTICES WHICH INFLATE THE COST OF FUNERALS...

This is a concept based on the belief that people should be protected from exploitation at an emotionally distressing time.

Everyone has to pay for a funeral eventually ... it's one thing you are forced to buy, and usually at short notice. In the time-honoured tradition of funeral directing, the distraught customer is invited to express love, appreciation, grief and guilt, by buying a bigger and better funeral.

... IT HAS NOTHING TO DO WITH QUALITY.

*Left: eco-cardboard casket. Other traditional caskets are available at upgraded prices.*

Date:.....

### NO SERVICE CREMATION

\$.....

Includes:

All prices include GST

- Transfer of deceased from place of death to our mortuary, and then to Crematorium.
- Eco-Cardboard Casket
- Cremation Fee
- Official documentation, including death registration and obtaining necessary medical certificates.
- Use of our staff, facilities and vehicles.

(Mileage may be charged outside Christchurch area. After hours fees apply.)

## So you simply wish to go straight to the crematorium...

First, there are some matters and frequently asked questions that we should answer.

Upon death there are certain legal requirements.

- 1: Death and Cremation certificates.
- 2: Medical referee certificate.
- 3: Registration of death.

### We obtain and complete this documentation for you.

**Q:** *Can I view the deceased before the cremation?*

A: Yes. But this will incur extra charges.

**Q:** *Can I be taken straight to the crematorium?*

A: If the death occurs at your home and the death and cremation certificates are completed. Yes, but within normal weekly working hours of course.

( The crematorium would not be open at 3.00am! )

If the death occurs at a Resthome or Hospital, once certificates have been completed, HALL & Co. Funeral Directors need to uplift the body to our mortuary by way of a transfer stretcher, ( because it is unacceptable to take a coffin direct to these locations ) where it is then transferred to the cremation casket.

**Q:** *Do I have to have a casket?*

A: Yes. Under the Health & Burial act, a secure & leakproof receptacle for the body, is required.

**Q:** *Do I have to be embalmed?*

A: No.

**Q:** *Do I have to have a service?*

A: No, but give consideration to those left behind.

They may wish for a memorial service, or be at the final disposition of the ashes.
